Among the best reasons for this action was the fact that, from the length of the bill the Governor would not have time to consider

Two of the letters of our sanctiate at Madison which have been to Chicago and back, came to hand yesterday. Most of their contents have been articipated, but the following, in relation to the L matte Asylum Contract, is of a sciel interest to all Tax-payers. The letter is dated on the 6th inatent:

The Lunatic Asylum Com festill busy at its work of investigation. It is now understood that the rough estimate of the total cost, by the contract, which I placed at \$500,000, will exceed but very little the cost as calculated by the Architects omployed by the Committee. The Contractor, Mr. Proudfit, has seemed the aid of able counsel, in the codessor to persuade the Committee that the State is "in for it," and cannot repudiate the contract. It does not seem nossible, but it is renoted that Messie, H. S. Orton, J. E. Arnold, and I G. Ryan, have actually given opinions that the State is bound by this contract. People generally do not, it is true, place much confidence in the opinions of feed Attorneys, but one would suppose the case too plain a one for such

Suppose a case. John Smith, having a large general business to attend to, proposes to have a bouse built for himself. He employs an agent, with a plau, and written instructions to make contracts for the building of a house, on that plan, ad to cost \$2500, only giving the agent discretion to vary the plan for better adaptation to its purposes, but still with a provise that these vamations are not to increase the coat. Now, the agout goos on, and in prelest and defiance of life instructions, makes contracts for a house to cost \$50,000. The astonished principal, John Smith, by god by finds out what has been done, and to onstrates, declaring that he gave no orders for such a building-that be cannot afford it-that it will ruin him. In such a case-and it is lust this case—if it is true that the counsel above named have expressed the epinion there stated, they would go to Mr. John Smith and say,-"Neighbor John I you must stand it I the con-

tract is binding upon you in law," John would very probably inlimate to these erologue counsel that, if this was law, then there saints no legatimate affinity between law and justice, and common sense; and so would every ser sible man say, W.HW.

So far as the "History" is a compilation from the Journals of the Territory and State of the action taken upon the subject at various times-since the inception of the Rock River Canal enterprise, it may be accurate, and we have no reason to suppose that it is not; but it eannot be a matter of doubt that an examination of the subject, and a pleading of the case of the Company throughout, as against the State, is uncalled for, unauthorized, and improper, just at this time, while a claim is pending; and indeed s at any time, until the matter bas passed from the suppreed personal prejudice. When we state against the Territory and State, defends in all cases the acts of Mr. Kilbourn as the agent for longs-reviews in a partizan manner the conduct of Mr. Martin, whose Report in 1842 seemed to

the propriety of accepting such a decument as part of the History of the State of Wisconsin, to be sent out to other states. Year after year, for six years past, has this subject been brought before successive Legislatures, and year after year have they given their deltherate judgment against the side which Gen'i Smith adopts. Nearly all of the actors in the matter are still living, and the subject is even he Veeder Case at the top of his lungs, so that 'now, again, before this Legislature in a memorial his voice rings through the Assembly Chamber from the Company, and their bill came near being rith a regular row-de-dow. THE MAYOR'S "POSTSCENT," -As his Honor Mayor Kilkouan, seems to be of opinion that the Sentinel's criticism upon his invitation to the Liquor Dealers, to " let her go" after 4 o'clock. on Election Day, was wholly dictated by prejudice, we invite his attention to the following disinterested comments from the Fond du Lac

Freeman : BYRGH KILBOURN, Mayor of Milwaukee, has made a proclamation requesting the liquor sellers to keep closed does on the day of Charter election, until 4 o'clock P. M., and then, by way of posterript to his communication, adds:

Some may see some small wit in that, but if there is any there is not enough to make up for the lack or dignity, that we should expect to see in a Mayor, whose pen in official communications

it least, should never write such rowdy slang. A CLEAR CASE .- The W.sonein charges the News and its sort of democrate with "utter demoralization," and in proof cites the damning fact that the News quotes a compliment to the ate Democratic Congress from the National Intelligencer, "the stendies t and sturdiest organ of ancient federalism in this country!" How it is that the Now has escaped being burnt in effigy for such manifest treason to an enlightened and inelligent democracy, is a marvel to many.

A Reply to the "Indian Talk." Mesers. Editors .

Size-In your issue of this morning is a plus or the Ladiaus, made by their own Chiefsto tl 1 Government, for the recovery of what they claim to be their rights. That the rights of the Iritians have often been invaded by individual and by the government also, is a matter of which the rights of which the rights of which the rights of the Iritians have often been invaded by individual and by the government also, is a matter of which the restriction. Because of the restriction of the restriction of the right of the and by the government also, is a matter of whice cotertain no doubt, and that their rights have been invaried in the present case, is the hone conviction of many of the tribe, and perhaps the Chicfs referred to; but that there is dishot eaty in some of the tribe, is equally plain. We have no doubt that there was a child bo

Dr. Marsh, and others. Woopacca County, that Narkoto had a child .t the time this child was taken at Waupacca Fal 1, which she claimed to be her child while at e requestly stated, before the disputed child w a laimed by the whites, that he was not her chill. But after the controversy was raised, the red child of Narkom was put out of sight, so that she might with a show of propriety claim the bas been necessarily postponed for one week tolen child. To what extent this high-hand d deception was known among the Indians and raders, I am not prepared to say, but charly would prompt me to believe, to no great exter: But with the greatest stretch of charity we mig it be allowed to suppose they were "dreaming" when they put their own child out of the wiv was discounted by them.

There are some traits of character which a e with the wish to sustain a good reputation, a >in deciding this peculiar case. There could be no possible object in the minds of the whites n iming a child which did not belong to the 1, and especially an Indian child. Let meask at y parent, if they would wish to take into their or n family and treat in all respects as their own, n Indian child. I have always felt a strong syrt oathy for the Indian race, in the wrongs whi h they have suffered from their white neighbors; but not quite enough to receive them into 1 y

family. But that sympathy has been not a little ex ited in secing them robbed of the small pitten e, which our Government has paid them for th ir Court in order to get rid of trying a man, against seautiful land, by their professed friends, win have given the most indubitable proof that it prejudices. they care for them, or the rest of the world ither, is the "almighty dollar.". Shut them aw .y they shed with the "deeply afflicted mother". they tell us about, and their eyes would be as humas misery.

But to return from this digression, let me e :quire, what parent there is who could have a child in their family for three years, and rat know whether it was their own child, or not? go down to our graves weeping.17

In relation to the decision by Commission a just remark, that it bears its own condemnation on the face of it, in the opinion of all who ha e lead the testimony and the decision disinteres -Respectfully yours,

The putting together of this volume as somewhat better than that of the former, but portion of the contents is far more obnoxious the bad typography or villainous binding. Nearly one bundred pages are devoted to what purpore to be a history of the Rock River canal, but which might with far greater propriety be termed a appeal to the Legislature to make an appropriation to Byron Kubourn. Madie in, March 8, 155. The As-embly, by sitting all the morning, and al the afternoon, and still again holding as evening session to consider that large mass of paper -the Militin Bill-has tather crowded the movement to-day, and, having already sent you the list of bills passed in both Houses, my communication must be somewhat buch. In Sonate, Mr. Hadley presented a temonat once against an amendment to our city char-

was burnel to-day, by refusing to reconsider .-It provided for making a representation in county boards by assembly districts. The bill, in the course of debute this morning, furned out to be not much else than the result of a county diffinity in Lafs yette Co.

In the afturnoon, two bills passed :

aa been kept. The special order-Mr. Vilas' bill to prevert the circulation of depreciated currency in this rate-was taken up, and debated for three hours, Missie Gury, Vilas, Hull, A. Taylor, Wakely, Vilgin, Rose, McIndoc and Stevens participating and the evils of a depreciated currency, the remedies for the same, and the tarrible iniquity of

anything but a specie currency, were talked

about at large; the western men and Mr. Wakely dilating particularly upon the latter point, Ins A sembly adjourned with the bill pend ing, the Mile redemption in New York still remaining intact. There is every probability of the passage of the bill nearly as introduced.

(The Assembly has been for several days duing the session, and particularly of late, excesa vely annoyed by a terrible racket in the Supreme Court Room below, made by Coursellor in sense of his fits of independent at the iniquity time, in a History of the state, authorized by of our Supreme Court in sustaining the Rtate : provious Legislature, nights, will protably explode and disappear in

n stace of the whole. Mr P H Smith moved that every 10th section of the hill be read. Mr Mcthe bill was re-orted back, and indefinitely postponed. Among the best reasons for this actic was the fact that, from the length of the bill,

the Governor would not have time to consider it before the adjournment. W. H. W. The Lunatic Avyluia Contract.

Two of the latters of our saucciate at Madisor which have been to Chicago and back, came to hand yesterday. Most of their contents have been scricipated, but the following, in relation to the I. instic Anylum Contract, is of er evial interest to all Tax-payers. The letter is dated on the 6th

It is now understood that the rough estimate of the total cost, by the contract, which I placed at \$500,000, will exceed but very litale the cost as calculated by the Architects on played by the Committee, The Contractor, Mr. Proudfit, has secured the aid of able counsel, is the codeavor to persuade the Committee that the State is "in for it," and cannot repudiate the contract. It does not seem nossible, but it is rumored that Messis. H. S. Orton, J. E. Arnold and I. G. Ryan, have actually given opinion that the State is bound by this contract. Peoplagenerally do not, it is true, place much confidence in the coinions of feed Attorneys, but one

would suppose the case too plain a one for such

general business to attend to, proposas to have a Intelligencer," the steadiest and sturdiest organ bouse built for himself. He employs an agent, with a plan, and written instructions to make contracts for the building of a house, on that plan, and to cost \$2500, only giving the egent discretice to vary the plan for better adaptation to it purposes, but still with a growing that these vamations are not to increase the cont. Now, the sgeat goes on, and in neglest and defiance of his nstructions, makes contracts for a house to cost \$50,000. The astonished principal, John Smith, by and by finds out what has been done, and tem mairates, declaring that he gave no orders for such a building-that he cannot afford it—that is w 11 ruiu bim. In such a cose-and it is just this case-if it is true that the counsel above named have expressed the opinion there stated they would go to Mr. John Smith and say,-"Neighbor John I you must stand it I the con-

truet is binding upon you in law," John would very probably infimate to these eminent counsel that, if this was law, then there exists no legetimete affinity between law and W.HW.

Our of them cuts from the | state of the case, the opinions of the historian upon a mutter of such importance, and to endors it by sending out 5000 copies at once to the world, to be followed by other editions, in all probability. So far as the "History" is a com-

pilation from the Journals of the Territory and State of the action taken upon the subject at various times since the inception of the Rock River Canal enterprise, it may be accurate, and we have no reason to suppose that it is not; but it cannot be a matter of doubt that an examination of the subject, and a pleading of the case of the Company throughout, as against the State, i uncalled for, unauthorized, and improper, just at this time, while a claim is pending; and indeed The County Government Bill, killed yeaterday, at any time, until the matter bas passed from the present time, and gone into the years beyond any supposed personal prejudice. Year after year, for six years past, has this subject been brought before successive Legislatures, and year after year have they given their deliberate judgment against the side which Gen'i Smith adopts. Nearly all of the actors in the Eyon, who has been abouting his arguments in matter are still living, and the subject is even the Veeder Case at the top of his lungs, so that 'now, again, before this Legislature in a memorial his voice rings through the Assembly Chamber from the Company, and their bill came near being with a regular row-de-dow. AN ORIENTAL BALLAD, -We copy this morn ing, from the Madison Journal, a very remarkable production, which our readers will flud richly worth perusal. It is a free translation from the Chinese, by a learned Mandarin, Rub-le, who is certainly entitled to the thanks of the Historical Society for his admirable version of this Evanic poem.

THE MAYOR'S "POSTSUBILT." -As his Hono Mayor Kithouan, seems to be of opinion that the Sentinel's criticism upon his lovitation to the Liquor Dealers, to "let her go" after 4 o'clock, on Election Day, was wholly dictated by preju dice, we invite his attention to the following disinterested comments from the Fond du Las

Braon Krasonan, Mayor of Milwaukee, ha made a proclamation requesting the liquor sellers to keep closed doors on the day of Charter elec-tion, until 4 o'clock P. M., and then, by way of posseript to his communication, adds:
P. S.—After 4 o'clock P. M., you can "let her

Some may see some small wit in that, but if here is any there is not enough to make up for the lack or dignity, that we should expect to see in a Mayor, whose pen in official communications at least, should never write such rowdy slang.

A CLEAR CASE .- The W. sonein charges the Name and its nort of democrats with " utter dein ayous to mak their reputation as it is said they moralization," and in proof cites the damning fact that the News quotes a compliment to the Suppose a case. John Smith, having a large late Democratic Congress from the National of aucient federalism in this country!" How it i that the New has escaped being burnt in effigy for such manifest treason to an enlightened and intelligent democracy, is a marrel to many.

> THE CHARTER ELECTION. - The News professes itself "at a loss to know what were the issues" u our Charter Election, but is very sure that 'hee trade in liquor'' was not one of them. The News is confident too, that there is no truth in he statement, made by a member of the " Free Trade Ausociation" to our associate in Madison, and thinks that the story was started to case off the result. It so happens, however, that the story was told before election and came from an artive member of that Association. We take his word in preference to the hap-hazard denials of

Political Nonescharus.—We see by the papers from the Capital that it is quite "the rig" with the stam Democratic happers on about Madison to designate the Republicans by the term 'Shanghala." A Reply to the "Indian Talk."

Hecern. Editors : Sins-In your issue of this morning is a plet or the Indians, made by their own Chiefeto the Dovernment, for the recovery of what they claid to be their rights. That the nights of the Indians have often been invaded by individual and by the government also, is a matter of which entertain no doubt, and that their rights have been invaded in the present case, is the hone t conviction of many of the tribe, and prehaps f the Chiefs referred to; but that there is disher-

esty in some of the tribe, is equally plain. We have no doubt that there was a child bo a t the time, and of the woman referred to by Oshkosh, and that many of the Indians suppo e the child in dispute the one born at that tim; out we are prepared to prove by such men a Judge Ware and Rov. Dr. Marsh, and others, of Waupacca County, that Narkom had a child t the time this child was taken at Waupacca Fal , which she claimed to be her child, while sie equently stated, before the disputed child w s claimed by the whites, that he was not her chill. But after the controversy was raised, the real child of Narkom was put out of sight, so that the might with a show of propriety claim the olen child. To what extent this high hand d deception was known among the Indians as d traders, I am not prepared to say, but charly would prompt me to believe, to no great exter But with the greatest stretch of charity we mig it be allowed to suppose they were "dreaming" when they put their own child out of the way and claimed the one which a few days before was disowned by them,

There are some traits of character which a e peculiar to the Indians, and one of them is, an children bas been one of the most terrible wa s of revenging the wrongs inflicted by their while neighbors. And by the duplicity of a trad r. child, was obsated out of a capoe, which wis picked up by the white father, affort on La a Winnekonne. This accounts for their havi g first stolen the child, and their desire for reven; with the wish to austain a good reputation, a counts for their effort to conceal the thefit ly claiming the child as their own. There is at Il mother consideration to be taken into account, laiming a child which did not belong to the 1, and especially an Indian child. Let me ask at y parent, if they would wish to take into their ov n family and treat in all respects as their own, n ndian child. I have always felt a strong syi 1athy for the Indian race, in the wrongs whi h they have suffered from their white neighbor; [amily:

But that sympathy has been not a little ex ited in setting them robbed of the small pittan s, which our Government has paid them for th ir ceautiful land, by their professed friends, we have given the most indubitable proof that II prejudices. they care for them, or the rest of the world i. ther, is the "almighty dollar.". Shut themaw .y they tell us about, and men eyes noted at sight of liberty. uwa misery.

But to return from this digression, let me e :quire, what parent there is who could have a BEFORE CLINTON WALWORTH ESQ., POLICE JUSTICE child in their femily for three years, and rat know whether it was their own child, or not? -And who would be villing to make the sacrif :e boroughly convinced that it was being made in desire to secure damages from the Indian tril s, was the prompting motive. To such, I would say, if we can be secured in the peaccable po session of the child, we will give bonds to at y mount desired, that we will never disturb t dren, and if we are deprived of them, we "sh'll day time if in the night time, the highout fine is one go down to our graves weeping."

In relation to the decision by Come Buttrick, as referred to by the Sentinel, I would just remark, that it bears its own condemnation on the face of it, in the opinion of all who ha e ead the testimony and the decision disinteres -

Respectfully yours, F. H. PARTRIDGE. P. S.-I would just say that the boat referred believers, thro' all sorts of paces. to above, was left with an Indian trader, on he pledging himself that he would give it to the I dian it be longed to; but instead of doing so, so d it to snother man, and told the owner that Ps tridge powned it to him for whiskey. I would the day of election.—[News.] further say that the child has made develop . ments since he has been with his parents, which no other child could have made but their own.

The Documentary History.

The third volume of this work-the second h. The third volume of this work—the second he not yet appeared—was distributed yesterd; morning in the Assembly, one copy to each monber. The putting together of this volume asomewhat better than that of the former, but portion of the contents is far more obnoxious the bad typography or villations binding. Nearly one hundred pages are devoted to what purpor to be a history of the Rock River caush but which might with far greatester propriety be termed a. appeal to the Legislature to make an appropriation to Byton Kuboure. Teening with errosect a statements, misrepresenting men and facts, and indirectly densuring the former Legislature which, after careful investigation and delibrate reflection have decided that the constitution have decided that the constitution of which, after careful investigation and delibrate reflection, have decided that the canal company, or in other words Mr. Kilbourn, has no use claim against the State, this document is published to the world as a history of the Rock River cans. Mr. Kilbourn has his memocial already before the present Legislature, and it a followed up by the History" as if it were a part of a concerted plast to reach that great centre of attraction, the putilic crib. At all events, whatever may have been the design, such a chapter as the one referred to should never have been introduced into a work. should never have been introduced into a wor :
purporting to be the History of Wisconsin. A is accurate and brief statement of facts would have been proper, but we seriously doubt whether the legislature, or any other, deare to hear the corclusions and advice of General Smith or Byro Kilbourn on the subject in question. Man is competent as either, with judgements unbiassed by interest or prejudice, have investigated the claim and drawn adverse conclusions; & we must most respectfully protest against this new mode of pressing the claim under the color of a bistor cal statement, at the same timegiving great cred: should never have been introduced into a wo al statement at the same time giving great cred

> CIRCUIT COURT. Junge Hebbell, Presiding.

Friday, March 9.

THE JAIL BREAKING CLASE .- This case commenced this morning; and the whole day was occupied in trying to get a jury free from prejudice. At 4 P. M., a jury list of upwards of fifty names had been exhausted and the panel not yet complete. Some of these esiled as jurors nelying thirst for revenge; and stealing while gave their opinions bluntly; one of them, in reply to the question as to his having expressed or formed an opinion, answered quickly, "Well, I'm a free soiler on this question!" And in reis husband of the Indian woman, claiming the ply to another question, answered, "I'm prejudiced for them;" and again, "I don't thick I should be a proper jury-man." We could not help observing the great contrast in the mode of conducting this case, to one in the next big Court in this city, and as an instance we take one remark of Judge Hubball to a jurer who appeared a little in doubt as to the meaning of the questions put to him by the different counsel. n deciding this peculiar case. There could be The Judge stated to the juror. "The question o possible object in the minds of the whites p is, can you, as a juror, decide the matter as impartially, as if you had heard nothing about it? The juror replied he "thought not" and was excused from serving. In the Circuit Court, there was no crowding jurous into the box, prejudices and all, nor was there the alightest anxiety for consiction, and these three white men, and this colored man, will have, what others tried for the but not quite enough to receive them into 1.7 same offense, have not had; a jury fairly empanelled, and not one of the jurers having avowed projudice several times in open Court, in the jury box, being compelled to threaten contempt to the Court la order to get rid of trying a man, against whom he had repeatedly swern he entertained
